

# **SAP S/4HANA Cloud Public Edition Trial**

## **Master Data and Model Company Overview**

SAP  
May 2024

Public

## Trial Information

This trial allows you to explore important functionalities of SAP S/4HANA Cloud Public Edition in a live system.

- Explore different business processes in this system by following the guided tours.
- If you prefer, you can also discover the system for yourself, using the sample data set up for this trial.

Please note the trial system is shared by multiple trial users. Therefore, some specific functions, such as creating or deleting master data, which might affect the trial experience of other users, are not in scope of this trial. But you can use the sample data provided, which means you needn't lose time setting up your own data.

You can find the master data and setup of the model company Velotics Inc. on the following pages. This sample data reflects the business of a fictitious company configured for this trial.
